Why is the health of our communities so vital?

We all benefit when the health of our community is excellent and we all suffer when it is poor.

- For health care providers, health impacts the quality of life of their patients and the cost of care
- For businesses, health impacts productivity of the workforce and the cost of health insurance premiums
- For schools, health matters in student learning and staff performance

Let's Vote!

PROCESS: Vote on Top 5 Stakeholder-Identified Priorities

GOAL: Identify the Top 3 Region Priorities

Prioritization Considerations

1. What is the magnitude of human and economic costs of this issue in our community/region?
2. What is the urgency of this issue in our community/region?
3. What is the size of the population affected by this problem?
